

UFANS

INSURANCE SERVICES

CARGO AND STOCK THROUGHPUT

Provides coverage for any type of cargo on a worldwide basis whether by ocean or inland transit import and export shipments, as well as warehousing/storage in the course of transit, on an "all risks" basis.

| APPETITE GUIDE

- Total insured values of **\$300K** and above in respect of transit and/or stock values.
- Locally **Hard to Place**, where local markets may have restricted appetite.

\$7,500
Minimum Premium

EXAMPLES OF MARINE CARGO PLACEMENTS:

- Ocean and inland import and export shipments including storage and warehousing in the course of transit
- Stock throughput (transit and global stock in storage outside the course of transit)
- Inland transit, rail, and barge transportation
- Consequential loss/delay in start-up (DSU for course of construction risks)
- Rejection risk
- Cyber risks

| TARGET INDUSTRIES

Manufacturers, wholesalers, distributors, traders, logistics providers involved, and importers/exporter engaged in global trade of the following industries:

- Food and beverage
- Mining, oil and gas
- Agricultural
- Pharmaceuticals
- General merchandise (clothing, lumber, furniture, consumer electronics and toys)
- Chemicals
- Financial
- Electronics and communications equipment
- Forestry, pulp and paper
- Defense and aerospace
- Construction

| STANDARD COVERAGE

- Fire and explosion
- Stranding
- Sinking
- Capsizing
- Overturning of a truck or train
- Collision
- Discharge at a port of distress
- Total loss of vehicle
- General average sacrifice and jettison

| ADDITIONAL CLAUSES

- Water damage
- Theft
- Malicious damage
- War
- Strikes
- Accidental breakage
- Washing overboard

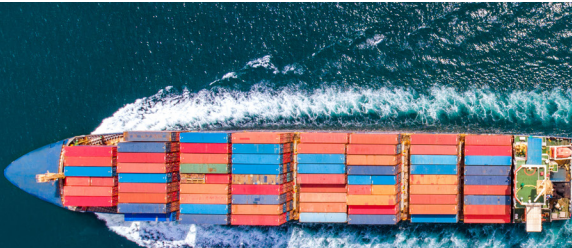

WHAT IS STOCK THROUGHPUT (STP)?

Protection for the flow of goods from production point to the final destination, typically covering physical damage to inventory while in transit.

- Ocean cargo transit
- Inland transit
- Stock storage

Integrates transportation, inventory storage, material handling and packaging by protecting the shipment of raw materials, works in progress, and finished goods.

Provides improved pricing and lower deductibles than what the property market can offer.
